The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest all the claimed subject matter including the evaluation tool positioned in a wellbore formation having virgin and contaminated fluid, the tool having at least two inlets fluidly connect to evaluation and cleanup flowlines, selectively establishing fluid connection between the flowlines and selectively altering the cleanup and evaluation flow rates for a discrete time interval.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
